RUST PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of sheet iron in addition to rust having now been tested several years both in this country and in Europe. They also are subject to no expansion and contraction from sudden changes of temperature than sheet iron or Tin Plate from Zinc &c., or any other metal as for roofing, and consequently form a much better and tighter roof, requiring far less repair, while the first cost is but a trifle.

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected may be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere, and they would especially call the attention of those interested in EGRAPHIC WIRE, to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nail Spikes Cut Nails &c., they will be able to furnish any article which may be desired. A supply of Plates manufactured by Lustre Iron-Stain on hand from 16 to 32 wire gauge.

DR. UPHAM'S

Vegetable Interna Remedy

FOR THE PILES!

☞ A Cure for Life Secured. ☜

For the cure of Piles Inflamation of the Liver and Spleen Inflamation, Soreness and Uneasiness of the Stomach Sick Headache, Kidney and Bladder Inflammation, and Hemorrhoids or Impurities of Blood. Weakness and Pollution of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr A Upham, a distinguished Physician of New York city, is the only remedy which can safely, effectually, speedily and certainly cure the Piles in all its various forms, and that too without the least exposure or inconvenience. Many of the most eminent physicians of the day, have given it their decided approbation, and recommend it to their patients, as the only safe and reliable remedy for the Piles. It is also a convenient medicine, and for the general health it is unrivalled, as a tonic, it is very mild in its operation, and yet it keeps the bowels in a soft and natural condition, and in this way it removes the cause of the disease, and thus cures it. All external applications, and all pills and powders are very disagreeable, inconvenient and ineffective, and in the majority of cases do more harm than good. This medicine overcomes the disease at once, and by REMOVING THE CAUSE, renders the cure CERTAIN AND PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY is so greatly superior for the cure of Piles, yet it has also been found unsurpassed for the cure of Inflammatory Diseases, such as Inflammation of the Liver, Spleen, Kidneys, Bladder, Stomach, Bowels, Womb, and in fact any other organ. In inflammatory complaints of the liver and Spleen, in the form of Fever and Ague, in Bilious Fever, in Inflammatory and Mercurial Rheumatism, in the Piles, and in Dropsy, it is unrivalled.

IMPURITIES OF THE BLOOD

For all impurities of the Blood arising from the improper use of Mercury or other causes, or diseases of the same, all Scrofula in all its various forms, where the blood is powerfully depraved, and producing cachexia and diarrhea, DR UPHAM'S ELECTUARY is unrivalled.

DISEASES OF LADIES

Married Ladies are subject to the painful and distressing disease the PILES with constant inflammation of the Stomach Bowels and Spine, weakness of the back flow of blood to the head &c. The Electuary is particularly effective. Pregnant Ladies and the most delicate can take it with perfect safety at any time. Barrenness is frequently the result of PILE PAIN or IRRITATION. Use it and be cured. Price one dollar and a quarter per box, or six boxes for five dollars, and sent to any part of the United States, or Canada, free of postage.

CURE FOR LIFE GUARANTIED

The Proprietor will give ONE HUNDRED DOLLARS to Any Physician, Apothecary or other person who can detect any injurious ingredient in the Electuary, or any deleterious influence resulting from its use. In connection with the Electuary, A CURE FOR LIFE IS GUARANTIED.

Pamphlets containing valuable information respecting this Medicine may be had gratis at the office of DR BRADLEE 130 Washington street, Boston, General Agent for the New England States.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland Me., March 14 1847

DR UPHAM—My dear Sir—I cannot express to you how much I am indebted to you for the wonderful cure I have received from your Pile Electuary. I have been a great sufferer for the last twenty years from the Piles, and have used almost every remedy that I could hear of, but found no relief, until I purchased a box of your Electuary, which has entirely cured me. I have also used in my family with the most perfect success in the case of children, and can recommend it to all who are afflicted with the Piles. Yours with respect,

☞ The Eastern Argus, and some other Locofoco prints, are labouring away upon the subject of a national bank and making it an objection against the Whigs Now the fact is that the present Sub Treasury scheme which the present administration have put in operation, and which these same Locofocos approve, is just precisely a government bank—a National Bank in full and active operation If these papers are sincere in their opposition to a Bank, then they should come out flat footed against the sub treasury banking scheme, which their party have set in motion

That our readers may understand the character and operation of this loco contrivance to give them their coveted fac bl es of a National Bank without the name, and without the people or the exchanges of the country deriving any advantage from it, we will copy a brief description of it from the New York Tribune The Bank is limited in its actual capital, to the Revenue and Resources of the Government but with a capacity of issue practically boundless as yet it is measured by the enormous sums in circulating necessaries of the Treasury It is constructed on the model of all the early National Banks in the origin, save that they either did or only pretended to issue paper only to the amount of the specie in their vaults, while Secretary Walker's exemplary contrivance vomits forth its promises to pay, of all shapes and sizes in proportion to the want of specie, and of course boundlessly To talk of this as an ordinary bank machine just because it refuses the notes of Specie paying institutions and receives only its own, which are redeemable on demand only in another sort of irredeemable paper, is the perfection of mundane audacity This same independent Treasury rag mill as it is misnamed aiding sons by the general inflation of the Currency and the consequent excessive importations, by which, to a reasonable arrest of our Home Industry is destined to be swamped and prostrated

And with this beautiful, rag issuing, currency inflating machine under full blast the Locofoco presses, turn round with a horrible grimace to the Whigs as favoring a United States Bank Can audacity and humbuggery go further

It is against the sort of men who can manage in this sort of way, and against such deceptions and against such party cheats in practice against party professions, that the Whigs in Maine, and through the country must unite as one man and give them a stern rebuke at the polls At the Polls at the polls at the polls, must these men, and these iniquities, be met and opposed, for then they can be made to feel

Up Whigs of Penobscot, and give the whole deceptive cheating, hypocritical batching fitting a stinging rebuke Don t be indifferent,—don t vote—don t scatter, but crowd up together and put in the sober, significant, and loud speaking, and deeply felt ballot,

☞ The New York Sun has a regular Fire eater for an express man between Mexico and New York There is a little too much of it for us to take easily at one dose He says Santa Anna has an army of fifty thousand men and is prepared for some of the most direful conflicts in modern warfare—that he is selling lands and leasing mines and collecting large sums of money and forwarding much to England on his private accounts—that he has the best of foreign workmen in the government foundries—that at Pinon thirty five thousand men are at work and will soon make it a perfect Gibraltar This news maker and carrier says he killed several Mexicans on the road—lost his whole party—turned to close loose with $300 and ran into the city of Vera Cruz and hopped on board a steamer and *flew* to New York! He is a rouser and no mistake

More Troops, and the Result of the War.

The Washington correspondent of the Journal of Commerce, says:

"The Washington writers from Washington say that it is in contemplation by the Government to call upon 10 000 more volunteers under the act of May 1846

The Washington correspondent of the Journal of Commerce, says:

"The object in calling for more troops is unquestionably to enable Gen Scott to march in his rear and in the meantime the meeting of Congress in December next when the Executive will throw upon that body the responsibility of assuming or continuing the war, and of adopting measures for carrying the objects of the war,

The N O Bulletin says, we advance the opinion in short time cannot, that after the capital had been taken by Gen Scott, if the Mexican Government continued to refuse terms of peace we can no longer consult for the Administration but hold it until Congress met, when the National Legislature would determine the future course to be pursued

There are two cases only, presents itself in case peace is not made, either to fall back and occupy the sea ports and frontier for a time make a serious attempt to conquer the country which latter plan cannot be undertaken with any prospect of success with less than from 60 to 80 000 men

We should consider the attempt as the height of folly, if we have any idea that Congress or the people would ever agree to it The expense and waste of life would be enormous without any sufficient object for the attempt, and at best, a doubtful result The other alternative will, therefore, probably be adopted

☞ At New York, on Monday there was further more freedom in the money market, the demand for payments at the Custom House having materially declined The Banks are discounting first class paper freely At Baltimore the money market is represented as easy The Banks continue to supply all demand accompanied with proper security, and, in consequence, the amount of good paper negotiated elsewhere is extremely limited

☞ The correspondent of the Providence Journal, censures the 'Sub of the Mercury, and all the rest of creation, to substitute, instead of the on the improvement going on at the First Parish church in our paper of yesterday the word 'new' for 'raw' and the word 'raw' for 'new,' then it would read as written 'a new opponent be added to our unity and another *raw* corner be finished up' &c That *am* what we wrote, as plain as a man s nose upon his face

☞ We tender our thanks to Col Maxwell conductor on the Eastern Rail Road, to Capt Jewett, and to Mr Haines Clerk of the Governor for papers furnished us yesterday in advance of the mail, by our prompt friend Mr Taylor

☞ The Yellow Fever is increasing to an alarming extent in New Orleans this fact is not discussed by our intelligent contemporaries of that city who faithfully caution the unacclimated against the dangers to which they are exposed

☞ All the chartered steamers employed on the Rio Grande, have been discharged from Government service, only such boats being retained as are actually owned by Government

☞ Capt Alden Partridge, of Norwich, Vt, has taken the stump in Pennsylvania and presents himself to freemen of the second Congressional District, as the Independent Republican candidate, to represent them in the next Congress

☞ Ladies who are about purchasing a rich Silk Dress, or a rich Cashmere, Crape Mohair, Sewing Silk, or in fact any kind of a Shawl we would advise to read our advertisements

☞ Not one of all the churches 72 in number) connected with the free Church of Scotland has failed to send up their contributions to the Boards of missions and Education during the last year—The sum received for these objects amounts to $359 000

A New College,

Founded by A J Beresford Hope, Esq, M P, is to be opened in England in October for the education of colonial clergy At present the principal quadrangle only has been completed, including the chapel, hall, library and apartments for fifty students, with the requisite accommodation for the officers and servants of the establishment The institution will be formed, says the Boston Witness, on our own collegiate models and the Archbishop of Canterbury has consented to prepare a code for the future government and regulation of the college

☞ Wood is now sold in Boston at eight dollars a cord It is said that the wood from Maine is generally unsaleable in Boston on account of not being cut in lengths of four feet That should be easily remedied, and now that the difficulty is known it undoubtedly will be There is but little wood cut in the immediate vicinity for shipment, but what is cut is of the best length

☞ The Boston Gazette learned from Capt Simpson, of the Bridgeton, that Capt McLean Governor, of Sierra Leone and well known as the husband of the accused poetess Miss Landon, died at Cape Coast about the 20th of April last

☞ We wish to call the attention of our subscribers to day a copy of the public laws passed at the late session of the Legislature They are in pamphlet form and convenient for preservation.

☞ The National Intelligencer in an article containing some speculations relating to the Mexican War, expresses the following views, which we hope will prove to be correct The assured prospect of a peace with Mexico, would carry joy to many hearts

"We are satisfied upon a deliberate review of all the public and private accounts that have reached us from Puebla, that no news of a decisive character need be looked for from that quarter for several weeks, one reason for this impression being the want of like hood that Gen Scott would undertake to march his force for an attack upon the city of Mexico, without urgent necessity, during the rainy season, which began on the 20th of June, and will not end before late in September

There are other reasons against the probability of an immediate movement by the main body of the army upon the city, but this one reason being sufficient, it is hardly necessary to state the others which have influence upon our mind, especially as they reach us through private channels Nor do we feel so certain as some of our contemporaries appear to be, that it will be necessary for the army to advance upon Mexico at all We cannot bring ourselves to believe that the Mexican chieftains, by whom everything is directed, will not find it to be for their personal interest as well as that of their country to listen to proposals for peace, which our Government now makes to them, proposals which of course there would have never been occasion to make, had no the war been most unnecessarily brought on

☞ Wm Lloyd Garrison and Frederick Douglass now on an anti slavery tour to the West, were severely handled at one of their meetings in Harrisburgh Pa, last week, by a mob of base and lawless fellows

☞ The Typhus fever prevails quite extensively in Boston, Lowell and various parts of Massachusetts

☞ The valuation of the property of Providence, by the Assessors this year, is $27,301,900, against $25 000 200 last year The rate of tax is 45 cents on the $100 The valuation in 1847 was only $14, 516 000 and the tax 31 cents on the $100

Androscoggin and Kennebec Rail Road.

For a few days past our village has been thronged with strangers, many of whom have been brought hither by business pertaining to railroad affairs

The contracts for the 2d division of the road were to be closed last Tuesday, and we understand that that part of the line extend ng thro Greene and Monmouth was let upon very favorable terms

Upon the first division the work of grading goes heavily on, the contractors upon all the sections being actively engaged

The wrong Man Hung.

A young printer named Boyington, who served his time in the office of the New Haven Palladium, was hung a few years since in Alabama upon a charge of having murdered a companion, with whom he was travelling He protested his innocence to the last, but with out avail

Recently the landlord, in whose house the murder was committed confessed the same on his death bed—Boyington was a young man of fine talents and prepossessing appearance, whose guiltless seemed conclusive only from the fact that he was the last person seen with the murdered man

The Irish Heart.

The London correspondent of the Pittsburgh Commercial Journal gives the following scene:—

The other day a scene occurred on Eden Quay in Dublin quite characteristic A family had come from the interior, and among them was a newly married couple of her own She and a neighbor boy were to have been married, when the summons came it was the time to leave, so they agreed to postpone the marriage 'till they reached America and she paid his passage While waiting in Dublin the coward swain rued The damsel applied at the office to have the money refunded—No it was a contract, the berth was there for him She stood on the deck and shouted, 'Is there a decent boy would like to come out to America? Here's a free passage" A bogman listened, a stout likely fellow His friends had assembled on the ground crying out *Ballad Pilot*" 'Never say it twice" cries she, so be quick we're off" In five minutes he had on his coat and with a bundle in his hand, was on deck, and with his arm round her waist, away down the river went the fair ship on her voyage to New York"

'Here be Truths.'

The N O National in an article treating of the consequences of this war with Mexico, says:

The expenses of the Mexican war are consuming every cent of revenue that can be got into the treasury All internal or national improvements are suspended No appropriations can be made, because it will interfere with the money wanted for the precious war The arts of peace are all nought—nothing has any value but engines of death, powder, bomb shells and bullets Even the national docks, so much needed by Government, are to be suspended, to husband the resources of the Treasury to carry on the war Hundreds of our worthy mechanics are to be thrown out of employment, and left to starve, because the money they should receive for their labor upon works of real utility, is wanted to be wasted upon favorites of the Government, in purchasing materials to carry on the war, and such are the consequences of war—they prey upon and ruin, alike, both conquered and conquerors"

☞ Rev Mr Lyle, Missionary of the Episcopal Board, says —

"In the city of Ching poo, we distributed great numbers of Tracts finding it difficult to pass through the streets with sufficient rapidity to prevent our being borne down by the crowd that followed us Our books were received with great cavility, nay, with an appearance of gourdiesy which afforded a striking illustration of the general attention paid to the cultivation of good manners."

Judge Wilkes was once asked by a Roman Catholic gentleman in a warm dispute upon,

"Where was your religion before Luther?

"Did you wash your face this morning" inquired the facetious alderman.

"I did, sir'

"Then, pray where was your face before it was washed?"

ROBERT BURNS.

BY MONTGOMERY

What bird in beauty, flight or song,
Can with the bard compare
Who sang as sweet, and soared as strong,
As ever child of air?

His plume, his note, his form could Burns,
For warm or pleasure, change,
He was not one but all by turns,
With transmigration strange,—

The Blackbird, oracle of spring,
When flow d his moral lay,
The Swallow wheeling on the wing,
Capriciously at play

The Humming bird, from bloom to bloom,
Inhaling heavenly balm
The Raven, in the tempest gloom,
The Halcyon in the calm —

In "auld Kirk Alloway," the Owl,
At witching time of night,
By "Bonnie Doon," the earliest fowl
That carol'd to the light.

He was the Wren amid the grove,
When in his lonely vein,
At Bannockburn the bird of Jove,
With thunder in his train —

The Wondark in his mournful hours
The Goldfinch in his mirth,
The Thrush a spendthrift of its powers,
Enrapturing heaven and earth,—

The Swan in majesty and grace,
Con emplating and still
But tossed—the Pideon in the chase
Could, like his nature, kill —

The Linnet, in simplicity
In tenderness the Dove,
But more than all beside, was he
The Nightingale in love.

Oh! had he never stoop'd to shame,
Nor lent a charm to Vice,
How had devotion inv'd to name
That Bird of Paradise!

Peace to the dead! In Scotia's choir
Of minstrells, great and small
He sprang from his spontaneous fire,
The Phœnix of them all!

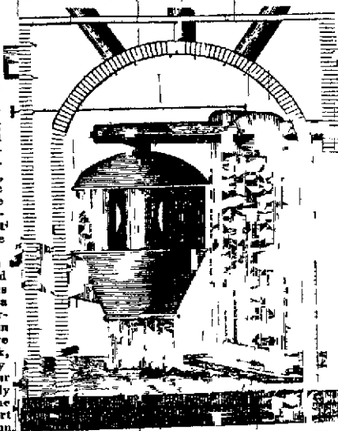
SILVER'S PATENT AIR FURNACE.

THE HOT-AIR FURNACE is an article the object of which is to heat dwelling houses and other buildings with a pure, comfortable and healthful warmth produced from the fire be warmed through tin conductors, in such manner that two three or all can be heated when required, by movements of valves or registers for such purposes inserted in the floors or ceilings of the rooms This method is new, and but few, comparatively, have become acquainted with its utility



The Furnace is placed in the cellar or basement of the building to be warmed, and when convenient, directly under the principal rooms to be heated, and as near a good chimney flue as practicable By this mode of warming dwelling houses, the dust filth and rubbish resulting from the use of fireplaces, grates or stoves, are all removed to the cellar room, out of the way and nothing is admitted to the room but the healthful and pure warm air

This method of warming houses, hospitals, and other buildings promotes ventilation, which is a most valuable consideration — for people in health, nothing more agreeable; for the sick, nothing more necessary In winter the warm air is evenly and gently wafted through the rooms, diffusing comfort every where, and in Summer the same apparatus may be used in cooling the same by allowing the cool air through the same channels and retiring to the occupants from the sultry pesture to taking refuge incident to open doors and open windows during the warm season of the year

—being in all its parts of cast iron, set within walls of brick masonry The pot or burner being while is found by experience to be more durable than those made of rings or sedgments, and less liable to be glazed into the hot air chamber

3 The great radiating surfaces of this Furnace, exceed those of any other and are so constructed that the heat sets actively upon those surfaces within and produces the immediate and powerful action of the cold air that is admitted to the outer surface from the atmosphere outside the building through the tubes for that purpose

4 The great economy in the use of fuel making and controlling more heat than by any other process of using it—the reducing surfaces having an extent and capacity by means of an additional flue greater, and evaporating pan through which the whole current of heat can be turned at pleasure to humidify the whole into the surrounding air before it leaves the Furnace, and in such a manner as to be controlled at will

5 The last (not least) merit of this Furnace is—it can be cleansed of soot and ashes easily without the necessity of taking down or breaking a joint, its action is simple—as easily understood and managed as a cylinder stove and as readily repaired and kept in order

ADAMS HOUSE,
No. 271 Washington Street,
BOSTON.
...L. & W. T. ADAMS beg leave to inform their friends and the public that they have taken the above new and splendid Hotel
THE ADAMS HOUSE was erected during the past season to supply an obvious demand for increased and superior accommodations in this City It is located on Washington street, within five minutes walk of the great Southern and Western Rail Road Depots and the business sections of the City It is adjacent to the Park and the Cupola commands a beautiful view of the Harbor and the adjoining towns.
The House has been constructed after the most approved plans, with all the modern inventions that promote the convenience of the Traveler, and the Contractors long experience in Hotels has enabled him to introduce many improvements which are not to be found elsewhere in this City
It is built of Quincy Granite, and contains one hundred and fifty Rooms conveniently arranged in suits and single apartments, well ventilated and supplied with an abundance of pure soft water
The Furniture was made to order from the best patterns, with special regard as well to comfort and convenience as to luxury and splendor
Our Table will be supplied with all the luxuries of the season, and we pledge ourselves that the first of the season shall be found upon it
We have devoted unusual attention to the selection of Servants, and our Guests may rely upon prompt and polite attendance
Porters will be in readiness at the various Depots to take charge of baggage, and provide Carriages for our Guests
The Proprietors trust by strict attention to the wants of Guests to merit a share of patronage as during all who may favor them with a visit that nothing shall be wanting on their part to render the ADAMS HOUSE second to none in the Union
L. & W. T. ADAMS,
Proprietors.

Thompson's Compound Syrup of Tar and Wood Naptha—If a man asks common sense will suggest that he ought to have recourse to proper medicines for the removal of his ailments. This may be done either by consulting a respectable physician or by taking a preparation which has been properly tested and met with the universal approval of the public. This plan, however is seldom adopted, owing to the specious advertisements of villainous quacks, who unblushingly assert that one particular medicine will cure every disease that flesh is heir to, from the tooth ache to the gout. These wicked fabrications are read by a majority of the people, who swallow the bait, the result of which is the public are first plundered then half of them are poisoned and the rogues fortune is made. *A great deal demonstrated in!* How much better it would be if people would inquire into the merit of a particular medicine before purchasing. It would remove all doubts, and secure the purchasers confidence. We invite the above remarks to investigation. We invite the above remarks to introduce to our readers 'Thompson's Compound Syrup of Tar and Wood Naptha,' a preparation of *standard merit* for the relief of consumption, asthmatic affections and diseases of the lungs and throat. These medicine we have used with the most triumphant results, and many cases of bad affections of the lungs have come under our notice which were speedily cured by a few bottles of *Thompson's Compound Syrup of Tar and Wood Naptha*. Be particular and get the genuine. It is prepared only by Agney & Dickson at the N E corner of Fifth and Spruce streets

Dr. Townsend's SARSAPARILLA,

The Most Extraordinary Medicine in the World!

This extract is put up in quart bottles, it is six times the strength, consequently, and is vastly superior to any sold in pint bottles at one dollar without a rival in curing the following complaints, viz:—
Like all great discoveries and superiority of this Sarsaparilla over all other medicines, while it radicates diseases from the system, it also invigorates the body It is one of the very best Spring and Summer medicines ever known, as not only does a thing while system and strengthens the person, but renders the blood pure and rich blood, as power possessed by the other medicine And in this lies the grand secret of its wonderful success This performs at once the work of years, more than 3,000 cases of severe cases of Scrofula, at least 60 of those were Chronic and incurable More than
2000 cases of Rheumatism,
1000 cases of Dyspepsia,
300 cases of General Debility and Want of Energy,
2000 cases of the different Female Complaints,
800 cases of Salt Rheum,
500 cases of the Liver Complaint,
5,000 cases of Dyspepsia and Dropsy
8000 cases of Consumption,
and thousands of cases of diseases of the blood, viz—Erysipelas, Pimples on the face, Blotches on the body, Ringworm, Tetter, Scald Head, Sores, Ulcers, Boils, Carbuncles, Chronic Sore Eyes, Pain in the Side, Back and Bowels, Nursing Sore Mouth, Rose or Erysipelas, Fever Sores, Scurvy, Sore Legs, Fever and Ague, Fever and Ague in the Head, Female Weakness, Pain in the Back and Limbs, Gravel, Dropsy, Pain in the Stomach, Sick Headache, Colic, Female Obstructions, Jaundice, Dizziness, Worms of all kinds, Scarlet Fever, Canker, Consumption, Bronchitis, Coughs, Colds, Influenza, Whooping Cough, Croup, Hoarseness, Hysterics, Tic Doloreux, Epilepsy or Fits, Nervousness, Sleeplessness, Cholera Morbus, Vomiting, Sick Stomach, Heartburn, Headache, Nervous Affections, Palpitation of the Heart, Inflammation of the Kidneys, Inflammation of the Bladder, Urinary Complaints, Incontinence of Urine, Stone and Gravel, Diseases of the Womb, Barrenness, Leucorrhœa or Whites, Obstructed or difficult Menstruation, Incontinence of Urine, for which there is no cure equal to this Sarsaparilla, as for the general purification of the system in every case whether of children or adults, no matter how deep seated or long standing the complaint may be, nothing can be found half so powerful to eradicate disease from the system, and restore the patient to sound health and vigor as this Sarsaparilla. Many cases of Scrofula have been cured by it after the patient had become reduced to a mere skeleton, and had taken large quantities of Mercury, Iodine of Potash, Sarsaparilla and other medicines without any benefit whatever. Systems filled with Mercury, Iodine of Potash, Sarsaparilla and other medicines, will find a powerful antidote to all the evil effects of those medicines in this Sarsaparilla. Systems filled with Mercury, Iodine of Potash, Sarsaparilla and other medicines, will find a powerful antidote to all the evil effects of those medicines in this Sarsaparilla.
Dr. Townsend's Sarsaparilla is a concentrated and simple cure for scurvy, Rheumatism, Neuralgia, Incorrect Curvature, obstructed or difficult Menstruation, Incontinence of Urine, for which there is no cure equal to this Sarsaparilla, as for the general purification of the system in every case whether of children or adults, no matter how deep seated or long standing the complaint may be, nothing can be found half so powerful to eradicate disease from the system, and restore the patient to sound health and vigor as this Sarsaparilla.
Nothing can be more surprising than its invigorating effects on the human frame. Persons may get to work and handle Iron the very first week they commence using it, as one bottle is sufficient to make them feel its strengthening effects. Many persons have been cured of Consumption after the last stages of the disease, and were supposed to be in the last stages of Consumption, and were supposed to be in the last stages of Consumption, and were supposed to be in the last stages of Consumption
